An Important Message Regarding Summer Semester from College President

Sheila Mingee, MBA, MEd

and

Dean of Nursing & Associate Professor of Nursing

Lanette Stuckey, Ph.D., MSN, RN, CNE, CMSRN, CNEcl - *April 23, 2020*

As we continue to experience the effects of COVID-19 on our country, our state, and at Lakeview, it has become clear that summer 2020 will be much different regarding course instruction on our campuses. It is with this understanding that we share with you Lakeview's plans for operations for summer 2020.

Summer Classes

For the health and safety of our community, **all in-person summer courses will be taught online till June 1, 2020**. Lakeview will monitor whether summer courses will continue online or if it is safe to move courses back in-person as the time comes closer. We will continue to make decisions based on the governor, scientists, and medical profession mandates and recommendations.

Clinicals & Labs

Clinical hours will be completed through virtual simulation during this time period. For Carle clinicals, such as Pediatrics, the entire semester will be completed through simulation as they have suspended hosting students for clinical for the summer semester.

Grading

All summer courses will be graded utilizing our traditional grading scale for those courses.

Adjusting Program Plans

If any student wishes to adjust their program plans or adjust their schedules for the summer, please contact the Registrar Connie Young directly at cyoung@lakeviewcol.edu.

We thank each one of you for your patience, kindness, and cooperation during this time. We truly miss you being on campus!

We are all in this together!
