How do I create an Evolve account?
Last updated on 07/06/2019 10.26 AM

Creating an Evolve account is free and easy and will give you:

- Quick access to all your Evolve content, such as resources, online courses and eBooks.
- Access to your personal shopping cart.
- Your order history in one overview.
- The possibility to receive alerts on new publications, products, and promotions.
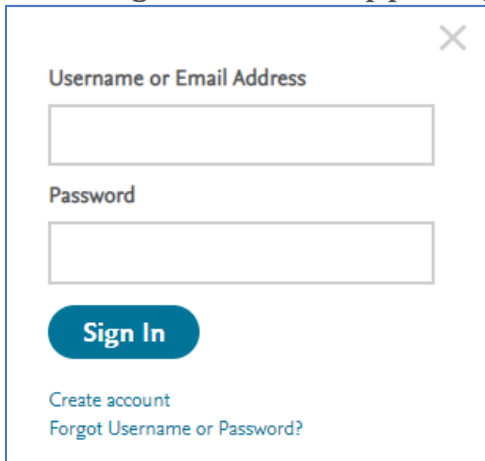

How

Follow these steps to create an Evolve account:

1. Go to the **Evolve main page**.

   - If this is the first time you visit or if you recently cleared your browser's cache and cookies, you might be asked to verify whether you're a student or educator.
   - If you see a blank screen, it might help to clear your cache and cookies or to enable Flash in your browser.

2. Click *'Sign in'* in the upper right corner of the screen.

3. Click *'Create account'*.
4. Select 'Student' or 'Faculty' depending on whether you want to register as a student or educator.
5. Enter your personal details and provide a new password in the designated fields.
    - It is preferred to use your School email address if you are affiliated with an Institution.
    - Double check the email address entered is correct.
    - Your password should consist of at least 8 alpha-numeric characters and must contain at least one number (0-9), at least one lowercase letter (a-z), at least one uppercase letter (A-Z) and only allowed special characters are "!#$%&'()*+,-./:;<=>?@[]^_`{|}~–.
6. Click *'Submit'*.

After completing these steps:

- A pop-up appears with your automatically generated username and your provided password.
- An email with your login details will be sent to the email address you gave in at registration.
- You can log in to Evolve with your username and password.
